

Declaration of Conformity, REACH (EC 1907/2006)

Sunfab Hydraulics AB declare that our products are in conformity with the requirements set forth by the REACH Regulation (EC) No. 1907/2006. As part of our commitment to compliance, we ensure that all our products and components meet the applicable standards and regulations as specified under REACH.

The European Chemicals Agency (ECHA) has identified certain substances of very high concern (SVHC) that may be present in products above the concentration threshold of 0.1% (weight by weight). We confirm that we continuously monitor the Candidate List, to ensure compliance with the obligations under REACH.

We declare that:

- Our proprietary products do not intentionally contain any SVHCs above the concentration threshold of 0.1% (weight by weight), as defined by Article 57 and listed in Annex XIV of REACH.
- Our product catalogue includes certain accessories that contain lead concentrations exceeding the regulatory threshold. As per legal requirements, these components have been appropriately registered in the SCIP database.
- We communicate with our suppliers to maintain compliance and assess any updates regarding regulated substances.
- We provide the necessary information to our customers, fulfilling our duty to disclose as required by REACH.

For further questions or if you require additional documentation, please do not hesitate to contact our local sales agent.
